Specification Sheet

Constant Voltage Phase Dimmable DC Drivers

The T-SERIES™ is a multi-channel Class 2 magnetic dimmable LED driver and the perfect choice for multi-output needs in tape lighting, tube lighting, linear lighting and multiple other residential and commercial lighting applications. Encased in a high-quality metal enclosure that includes five 7/8" knockouts for easy installation, each unit is equipped with push-to-reset breakers, one on the input and one on each output, to protect both the driver and the LED load. All our magnetic LED drivers are phase dimmable with any standard leading edge MLV TRIAC dimmer.

The T-Series is available in 12 or 24VDC output and is a LISTED enclosure with junction box.

Installation: Integrated junction box with multiple 7/8" knockouts

Driver Type: Class 2 multi-channel

Dimming: Phase dimmable with leading (forward) edge MLV TRIAC dimmer only

Input Voltage: 120VAC, 50/60Hz

If one channel is loaded to 96W, the other one or two channels must have a combined load of NO LESS than 48W.

Examples of suitable channel loading configurations:

96W	96W	96W
96W	48W	X
96W	Z	Z
< 96W	X	X

X = Any load or no load

Z = Must be $\geq 24W$
