

MINDRIVE 60™

Mini Constant Voltage LED Driver

Dimmer Compatibility List

The dimmers listed below were tested with the specified Magnitude LED drivers. We are constantly adding to our list of compatible dimmers.

This chart describes the lowest measured electrical output when using the dimmer/driver combination. Some dimmers have wider dimming range. However, these percentages do not accurately describe the perception of the lamp, which is subjective to the individual viewer.

This compatibility list also takes into account other quality considerations such as flicker or pulsation. We do not recommend dimmers with these issues.

DIMMER TYPE	SMD60R12DC	SMD60R24DC
Lutron Diva DVELV-303P (ELV)	Approved Dims to 2%	Approved Dims to 2%
